

easyveneer (Hoop Ply)

Profiles include:

easygroove, easybeaded, easypanel, archipanel

APPLICATIONS

Austral Premium AC (Interior) is manufactured to AS 2270 and is intended for use in non-structural, interior applications where a high quality aesthetic finish is required. Typical applications include internal wall panelling, furniture and fitments, interior door skins and ceiling linings.

Note: Interior plywood must not be used in exposed, wet or damp conditions.

Important: Oil based stains are not recommended on plywood where the finished job will be subject to close scrutiny. Oil based stains tend to penetrate the face veneer of the plywood and strongly highlight the natural figure in the timber, darkening it considerably. In many applications this may not be desirable. Oil based stains also tend to swell the grain of the surface veneer, again potentially disfiguring the plywood.

Specifications

Faces	A-C
Bond	C-Bond
Emissions	E0
Standard	AS/NZS 2270 - 2006
Core Gaps	Some
Thicknesses	9, 12.5mm
Dimensions	2400 x 1200mm

ACOUSTIC

Hoop pine plywood has become very popular in commercial applications where the natural warmth of hoop pine is combined with the acoustic properties of panel perforations. Sizes and thicknesses for this product: 2400x1200mm, in thicknesses of 9 and 12.5mm.

FIRE RATING

Untreated Hoop Pine plywood is rated "Group 3", certified by CSIRO to AS/NZS 3837, complying to BCA requirements.

NATURAL BB

A "Natural BB" option is available for our Interior Hoop Pine plywood where a more natural look is required. This option uses "B" face veneers, exhibiting wood grain characteristics to a greater degree.

Plywood is a natural product that can be affected by changes in ambient weather conditions, possibly causing previously flat sheets to bow. At Austral Plywoods all precautions are taken to ensure flatness at time of dispatch, however once the plywood has left our factory we cannot guarantee sheets to remain flat unless fastened. This is particularly important where free standing kitchen/cabinet doors are concerned.
